EXPERIENCE

London Foot & Ankle Surgery, London (Remote) — Digital Service Developer

April 2018 - Present

London Foot & Ankle Surgery is a foot clinic based in Central London. The role involves the ongoing modernisation and improvement of digital systems both on the back and front end of the practice, including:

- Creation of client applications - designing a package of Single Page Applications using React JS, which integrate with G Suite to streamline common administrative procedures, for example:
 - Booking virtual or distance consultations
 - Registering with the clinic prior to appointments
 - Providing preliminary healthcare information
- Going paperless - moving the clinic administration onto a G Suite system, as well as the creation of custom automated workflows using a combination of:
 - Client Scripting
 - Bespoke Domain Published G Suite Addons
 - Real Time Analytics and Data Visualisation with Google Data Studio
- Collaborating as part of the frontend team to replace the pre-existing websites, as well as improve design, content and SEO

Creative Opportunities CIC, London — Director

April 2016 - January 2020

Creative Opportunities CIC is a Community Interest Company that facilitates and encourages creativity amongst young Londoners, supporting them to develop skills, make connections and lead change.

Working alongside a small board (4 in total) to improve Governance across the organisation. Improving transparency and ensuring the organisation meets regulatory demands.
